

Bears of Denali

Denali National Park and Preserve
August 14 - 16, 2023

Course Description

As the days grow shorter, grizzly bears are preparing for their long winter's sleep. Join Denali National Park wildlife biologist Pat Owen and hear tales from her 30 years of studying bears in the park. We will spend our time investigating grizzly bear habitat while learning about this animal's behavior, life history, and their role in the Denali ecosystem. We'll also discuss ongoing grizzly bear research and how to stay safe in bear country.

Hiking Distances and Physical Fitness

Field courses are active learning experiences and take place off trail in Denali's wilderness. Hiking will be moderately strenuous over uneven tundra, forest, and river bar terrain, covering distances of up to 3 - 5 miles round trip with as much as 1,500 feet of elevation gain. We will likely encounter wet tundra / forest conditions and stream crossings with water levels that are above hiking boots. **Participants must be in good physical condition.** If you are uncertain about your physical ability for this course, please contact us for more information.

Times and Location

Participants meet at the Murie Science and Learning Center, located at mile 1 of the Denali Park Road. Check-in starts at 6:00pm on Monday. The course begins at 6:30pm and will return to the park entrance area around 4pm on Wednesday.

Lodging and Meals

This course is based out of the Murie Science and Learning Center Field Camp, located 29 miles inside Denali National Park along the Teklanika River. The Field Camp includes rustic tent cabins and outhouses. Meals are simple and healthy.

Accreditation

The University of Alaska Anchorage (UAA) offers one professional development credit (level 500) for an additional \$79 fee. You must register for the credit directly with UAA.

Questions?

More detailed information about this course can be found by opening the other documents in the "course details" tab on the website.
