

SEWARD TRAIL-DESIGN & CONSTRUCTION COURSE

PRE-REGISTRATION INFORMATION

Your connection to Alaska's parks, forests, and refuges

COURSE OVERVIEW

This expedition takes place in the Seward District of the Chugach National Forest. The group will repair a segment of trail while working with the US Forest Service. This project will involve learning the anatomy of a trail and how to use hand tools such as pulaskis, shovels, picks, and loppers. On Saturday, June 10th the group will join Alaska Trails for their Stewards Volunteer Event to work on a large-scale project together. Students will bring their newfound expertise in trail construction to the event. The group will be based camped at Trail River Campground for the duration of the trip.

The expedition will start and end in Anchorage. A group van will drive from Anchorage to Trail River campground and back. If you will be traveling from outside of the Anchorage area, please get in touch so we can help arrange travel logistics.

COURSE ITINERARY

This is an example itinerary that is subject to change based on weather conditions, availability of USFS staff, transportation delays, and for unplanned opportunities.

DAY 1 - June 4th

Group meets in Anchorage at 4pm to go over trip logistics and camping gear. Further details will given prior to this date.

DAY 2 - June 5th

8:30am - group meets at the AK Geo Anchorage office, 421 W 1st Ave, Anchorage, AK 99501, for departure. Upon arrival at camp, group will set up camp and meet with a Forest Service ranger to review the trail project.

DAY 3 - June 6th

Continue trail project, with time to explore and relax in the afternoon

DAY 4 - June 7th

Continue trail project, with time to explore and relax in the afternoon

DAY 5 - June 8th

Continue trail project, with time to explore and relax in the afternoon

DAY 6 - June 9th

Continue trail project, with time to explore and relax in the afternoon

DAY 7 - June 10th

AK Trails group project event!

DAY 8 - June 11th

9:30a camp departure. Pick-up at 12:00p at AK Geo office, 421 W 1st Ave STE 250, Anchorage, AK 99501

EXPECTATIONS FOR YOUTH

This field course is an active learning experience set in remote locations on the Kenai Peninsula. Students will be expected to actively and positively contribute to the expedition by participating in group discussions, being present during conservation work, and practicing a group-focused expedition mentality. They will be expected to positively participate in building a fun, effective, and inspiring team of peers. All participants will sign a student contract as a commitment to the expedition (found under "paperwork" link).

Activities will rotate through labor-based projects, relaxation time, moderate level exercise, and strenuous level exercise. Participants need to be able to hike up to 6 miles a day with a 30lb backpack on rocky, rough, and uneven terrain, sometimes off-trail. Participants should be able to self-regulate emotions in various weather conditions such as wind, rain, hot, and cold with mosquitos present. Participants will be sleeping in tents with another group member. No experience with trail work, hiking, backpacking, or camping is necessary to participate. **Participants should be in good physical condition and prepared for all weather conditions.**

The group will be constantly supervised and guided, but each individual is responsible for attending the trip physically and mentally prepared for variable conditions.

Please reach out to discuss these expectations further if you have any questions.

WEATHER

Weather in Alaska is unpredictable. Please come prepared for a wide range of weather, especially cold and wet conditions. Temperatures can dip close to freezing in the evening and may warm up to the 80's during the day. Mosquitoes can be abundant at any time in the summer. Our course activities will continue rain or shine, but the itinerary may change based on weather conditions that call for safety concerns.

FOOD

All food will be provided, including hot drinks and snacks. Menus are extensively planned and portions calculated to ensure enough calories and variety. If you have specific dietary needs to discuss, please provide as much information as possible on our dietary request form (included in paperwork). Unless specifically discussed prior to the program, students are not allowed to bring their own food as all food must fit in bear-secure food containers.

CAMPING

The group will be based camped at a National Forest campground with tent pads and outhouses. Participants will be in tents with 1-2 other participants, to be determined by trip leaders on the first day. We will closely follow wildlife-related safety precautions. All food and smell-ables (such as toiletries) will be stored outside tents in a bear proof container. Students will camp together with AK Geo instructor tents immediately nearby.

ORIENTATION INFORMATION

Orientation will take place in Anchorage, and students will be returning home after orientation (unless discussed otherwise).

On the day of our orientation, please bring all of your packing list items along with you. Your items do not have to be packed, as we will spread everything out and go through the packing list. You will also be issued all the gear you need to borrow. Once our bags are packed, we will load them up into our van and you will not have access to them again until we arrive at campsite the next day. The only items you will bring home after orientation are items you decided you did not need to bring on the trip and whatever you would like to wear for the van ride.

Please refer to the itinerary above for date/time details. If you are coming from out of town, please contact education@akgeo.org or 907-771-8466 as soon as possible.

CLOTHING & GEAR

All essential clothing and gear will be provided at no cost.

COVID-19 INFORMATION

Please see our updated Covid policies and procedures on the Safety & Risk Management page on akgeo.org. We strongly encourage participants to be fully vaccinated. All participants will take an at-home rapid test at orientation. Masks may be required in indoor spaces at time. The safety of our staff is crucial to the success of this trip and our future summer programs for students - please do not attend the trip if you are presenting symptoms of a respiratory illness.

CANCELLATION POLICY

Due to a high volume of applicants and our time sensitive logistics for each trip, we request that students inform us no later than **10 days** before the beginning of a trip if they will not be able to attend the expedition. Failure to do so can jeopardize eligibility for future trip opportunities.
