

Your safety and comfort are important to us. Please read this list carefully and contact us with any questions or concerns. The entire course takes place outdoors and activities will continue rain or shine. We will be hiking off trail on rough terrain and will likely encounter wet conditions, including small stream crossings. Temperatures can be below 32 degrees F or as high as 80+ degrees F. Snow is possible at any time. Be prepared with adequate warm clothing, a hooded rain jacket, and rain pants. Dressing in layers is recommended. Mosquitoes and other biting insects can be numerous anytime during the summer.

Packing your clothing in a large duffel bag or backpack will be easiest for transport to our field camp. At the field camp, we leave all scented items such as toiletries & bug spray in a bear-proof shed and do not allow them in the tent cabins; therefore, please pack these items separately in a small bag.

Clothing for Cold Weather:
