

**University of Alaska Anchorage  
School of Education  
3211 Providence Drive  
Anchorage, Alaska 99508-8269**

**ED 581 Professional Learning in Science Education:  
Explore your Environment with Alaska Project Learning Tree**

**1 Credit, Graded P/NP  
Summer 2024**

**Course Sponsor:** Alaska Geographic, Murie Science and Learning Center, Denali National Park

**Instructor:** Molly Gillespie  
**Primary Grading Instructor:** Madeleine Morimoto

**Educational Resource:** Paula Davis

**Primary Grading Instructor:** Madeleine Morimoto

**Facilitating Instructor:** Jessica Brillhart

**Contact Information Address:** Alaska Geographic, Murie Science and Learning Center, P.O. Box 136, Denali Park, AK 99755

**Telephone:** (907) 683-9632

**Email address:** [courses@akgeo.org](mailto:courses@akgeo.org)

**Course Meeting Information**

**Location:** Murie Science and Learning Center (MSLC), Denali National Park & Preserve entrance

**Start and End Date:** June 5 - 7, 2024

**Class Day(s) & Time(s):** June 5th, 6:30pm through June 7th, 4pm, continuous residential course

**Final Project Due:** Final day of course

**Course Description:** Project Learning Tree offers flexible and engaging lessons that incorporate STEM, language arts, and social studies, and encourages collaborative, inquiry-based learning that can be integrated into existing curriculum. Students benefit in multiple ways from nature-based learning: decreased anxiety, reduced

stress, improved behavior, and increased engagement, to name a few. And teachers do too! This teacher workshop will explore the boreal forest and tundra, learning about natural history while being immersed in outdoor teaching and learning techniques. PLT coordinator Molly Gillespie will pair standard based activities with artist and educator Molissa Udevitz who will guide educators in daily mindful movement activities as another way to explore the natural world. Participants can slow down, heighten their senses, and deepen their understanding of – and connection to – Denali’s environment and the natural world. These activities can be used with students to incorporate more kinesthetic and social-emotional learning into classes. Participants will consider how to integrate their learning from this fieldwork course into their teaching or educational environments.

**Intended Audience:** Teachers and other interested educators

**Enrollment Restrictions:** None

**Course Prerequisite/Co-requisites:** None

**Course Design:**

- a. Requires 15 contact hours and approximately 30 hours of engaged learning.
- b. Does not apply to any UAA certificate or degree program.
- c. No UAA lab and/or materials fees beyond standard charges.
- d. This Murie Science and Learning Center course will be entirely field-based. Learning will be achieved through lectures, group discussions, field observations, and field activities. This course is based upon the collegial sharing, collaboration, and support of the participants and facilitator as a community of learners. Course activities will include common readings and group discussions, collective learning processes, peer coaching/mentoring, and reflective practices.

**Instructional Goals and Defined Outcomes:**

RESEARCH BASED THEORY/PRINCIPLES/PRACTICES/TRENDS (CONTENT)

1.0 Instructional Goal:

Introduce the national environmental education organization, Project Learning Tree (PLT) to participants, including PLT’s network, resources and materials by using PLT’s new, NGSS correlated guide, *Explore Your Environment: K-8 Activity Guide* to engage in place-based teaching practices, outdoor learning experiences, and Alaska specific field investigation techniques, while exploring the concepts of environmental literacy.

Defined Outcomes:

- 1.1 Participants will examine the Project Learning Tree curriculum and be able to describe key elements of the *Explore Your Environment: K-8 Activity Guide*, and the relevance of the material to their personal teaching goals and practices.
- 1.2 Participants will learn best practices for outdoor teaching and learning methods, and understand the benefits of place-based learning.
- 1.3 Participants will understand the three-dimensions of science instruction and examine how PLT can be used to meet standards of multiple disciplines.
- 1.4 Participants will become familiar with the Alaska Natural Resource and Environmental Literacy Plan.

2.0 Instructional Goal

Introduce participants to the natural history of the Denali National Park and the ecology of boreal forest by examining the plants and animals of the area.

Defined Outcomes

- 2.1 Participants will demonstrate an understanding of the ecology of the boreal forest and describe how they will use that knowledge to connect to the PLT curriculum, and to their classroom practices.
- 2.2 Participants will use their knowledge to describe how they can use place-based learning experiences in their classroom or setting.

THEORY INTO PRACTICE (APPLICATION)

3.0 Instructional Goal:

Engage participants in field investigations, selected PLT activities, place-based outdoor learning experiences, and use nature journals as an approach to engaging in scientific thinking; provide an opportunity for participants to examine how they will use PLT activities to engage in phenomenon based learning.

Defined Outcomes:

- 3.1 Participants will practice and apply outdoor teaching and learning techniques and demonstrate an understanding of using PLT materials to support field investigations and outdoor learning with their audience.
- 3.2 Participants will gain knowledge of how to teach natural journaling, and describe how they will use nature journals to enhance their learner's experience with the natural world.
- 3.3 Participants will describe how they will integrate their experiences and the PLT activities into their teaching or educational setting.

REFLECTION ON THEORY INTO PRACTICE (REFLECTION)

4.0 Instructional Goal:

Engage participants in discussions, reflective journaling and informal sharing about classroom instruction and how to incorporate gained knowledge and experience into their classrooms.

Defined Outcome:

- 4.1 Participants will review and reflect upon place-based learning and connecting movement techniques to classroom instruction. Participants will complete a journal, reflecting on how the information can be shared with their students.

RELATIONSHIP TO STANDARDS

5.0 Instructional Goal:

Familiarize participants with interdisciplinary content standards addressed by the strategies and concepts presented, while highlighting PLT's connection to three-dimensional science instruction and the Science Standards of Alaska (SSAs), and national social studies, ELA, and math standards.

Defined Outcome:

- 5.1 Participants will identify the discipline's standards applicable to their classroom.
- 5.2 Participants will be able to describe how PLT's activities can be used as phenomenon-based learning tools in correlation with SSAs.

**Writing Style Requirements:**

Participants' writing will reflect the clarity, conciseness, and creativity expected of post-baccalaureate certificated educators.

**Attendance and Make-up Policy:**

Participants are expected to actively and collegially participate in all classes as a contributing member of a learning community. Attendance at every session is mandatory.

**Course Assignments, Assessment of Learning, and Grading System:**

Course grading will be Pass/No Pass based upon the following:

- a. Participation 50%  
Participants will be expected to actively and collegially participate in discussions, activities, and other process experiences during the seminar.
- b. Final Project - Journal completion 50%  
Participants will complete journal assignments to be turned in to instructor on the last day of class. Assignments will include thoughtful reflection based upon seminar experience and an application plan of how participants will integrate issues and content discussed into their own classroom setting.

**Quality of Work**

**Grade of "Pass"**

Passing work includes all components of the assignment and meets proficient criteria. It is focused, developed, supported, logical, and acceptable work with minimal errors. Work of this quality indicates understanding of key concepts and knowledge base.

### **Grade of “No Pass”**

Work graded “No Pass” may lack key criteria/components of the task and show little or no evidence of conceptual understanding or knowledge utilization. Work may also show minimal or no organization/development and/or clear focus (may be difficult to follow) and may contain numerous errors. This grade indicates minimal or no knowledge or concept development. It may also mean that work was not attempted.

### **Course Calendar/Schedule:**

- Wednesday 6:00 p.m. – 6:30 p.m. Greeting and check in at the MSLC  
6:30 p.m. – 8:00 p.m. Drive to MSLC Field Camp and settle in
- Make Nature Journals and discuss using nature journaling to build scientific skills and thinking
- Thursday 9:00 a.m. – 5:00 p.m. Introduction to PLT and Exploration of Denali
- Explore PLT’s *Explore Your Environment K-8 Activity Guide*
  - Engage in PLT activities and investigations
  - Engage in exploring movement as an observation technique for kinesthetic learners
  - Natural History of Denali
- 6:00 p.m. – 8:00 p.m. Dinner and evening discussions
- Teacher study group to discuss the day’s activities and how the information can be shared with students
  - Identify applicable science content standards addressed by course content
- Friday 9:00 a.m. – 3:00 p.m. Continued Exploration of Denali and PLT
- Engage in Nature Journaling activities
  - Engage in PLT activity and explore using movement as a way to deepen the learning process
  - Examine relationship of PLT’s guide to NGSS/SSAs and other interdisciplinary standards
  - Educators choose PLT activity to implement in their classroom
  - Ecology of Boreal Forest
- 3:00 p.m. – 4:00 p.m. Return drive to MSLC

**Final Project Due:** last day of course

**Course Texts, Readings, Handouts, and Library Reserve:**

**Informed by the School of Education Vision, Mission, and Conceptual Framework:**

We believe that the preparation and support of professional educators is the shared responsibility of the University of Alaska Anchorage and our partners, and that our programs must evolve dynamically in response to unique community needs, research, and continuous program assessment. This PACE course is designed to meet a professional development need in response to our partner school districts and professional organizations. The course fits within the mission of the UAA School of Education as we encourage lifelong learning to meet the challenges of a rapidly changing world.

**Link to Alaska Educator Content and Performance Standards:**

This professional development is rooted in the fundamentals of Alaska’s standards for teachers, administrators, and beginning teachers in Alaska’s Administrative Code, 4 AAC 04.200. It is offered to encourage and support practicing educators attain, maintain, or surpass the standards for effectively preparing today’s students for successful lives and productive careers. (<https://education.alaska.gov/standards/other-standards>)

**Learning Forward Standards for Professional Learning:**

This course is further informed by the Learning Forward Standards for Professional Learning which outline the “characteristics of professional learning that leads to effective teaching practices, supportive leadership, and improved student results.” As explicit in the standards, “professional learning is for educators to develop the knowledge, skills, practices and dispositions they need to help student perform at a higher levels.” (<https://standards.learningforward.org>)

**Course Policies:**

**Incomplete Grades**

Due to the nature of this course, grades of incomplete will not be permitted.

**ADA Policy**

The provision of equal opportunities for students who experience disabilities is a campus-wide responsibility and commitment. Disabilities Support Services (DSS) is the designated UAA department responsible for coordinating academic support services for students who experience disabilities. To access support services, students must contact DSS (786-4530 or 786-4536 TTY) and provide current disability documentation that supports the requested services. Disability support services are mandated by Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990. Additional information may be accessed at the DSS Office in RH 105 or on-line at [www.uaa.alaska.edu/dss](http://www.uaa.alaska.edu/dss).

### **Academic Dishonesty Policy**

Academic integrity is a basic principle that requires all students to take credit only for the ideas and efforts that are their own. Cheating plagiarism, and other forms of academic dishonesty are defined as the submission of materials in assignments, exams, or other academic work that is based on sources prohibited by the faculty member. Academic dishonesty is defined further in the “student Code of Conduct.” In addition to any adverse academic action that may result from the academically dishonest behavior, the University specifically reserves the right to address and sanction the conduct involved through student judicial review procedures and the Academic Dispute Resolution Procedure specified in the University catalog.

### **Professional and Ethical Behavior**

University of Alaska Anchorage School of Education students are expected to abide by the State of Alaska Code of Ethics of the Education Profession and professional teaching standards as they concern students, the public, and the profession. The standards, adopted by the Professional Teaching Practices Commission, govern all members of the teaching profession. A violation of the code of ethics and professional teaching standards are grounds for revocation or suspension of teaching certification.

### **Technology Integration**

University of Alaska Anchorage School of Education students are expected to (a) demonstrate sound understanding of technology operations and concepts; (b) plan and design effective learning environments and experiences supported by technology; (c) implement curriculum plans that include technology applications in methods and strategies to maximize student learning; (d) facilitate a variety of effective assessment and evaluation strategies; (e) use technology to enhance productivity and professional practice; and (f) understand the social, ethical, and human issues surrounding use of technology in PreK-12 schools and apply those principles in practice.

### **Course Safety and Risk**

This course is sponsored by Alaska Geographic and the Murie Science and Learning Center. The University of Alaska Anchorage provides the credit option for interested participants. This course takes place entirely outdoors and within a remote area of Alaska. Field courses, such as this, do have inherent risks. These risks will be outlined in the Alaska Geographic Acknowledgement of Risk form and by the course instructors. The Acknowledgement of Risk form will be provided at the time of registration and a signed copy is required in order to attend.

### **Non-Discrimination Policy**

The University of Alaska is an affirmative action/equal opportunity employer and educational institution. The University of Alaska does not discriminate on the basis of race, religion, color, national origin, citizenship, age, sex, physical or mental disability, status as a protected veteran, marital status, changes in marital status, pregnancy, childbirth or related medical conditions, parenthood, sexual orientation, gender identity, political affiliation or belief, genetic information, or other legally protected status. The University's commitment to nondiscrimination, including against sex discrimination, applies to students, employees, and applicants for admission and employment. Contact information, applicable laws, and complaint procedures are included on UA's statement of nondiscrimination available at [www.alaska.edu/nondiscrimination](http://www.alaska.edu/nondiscrimination).
